# Usability

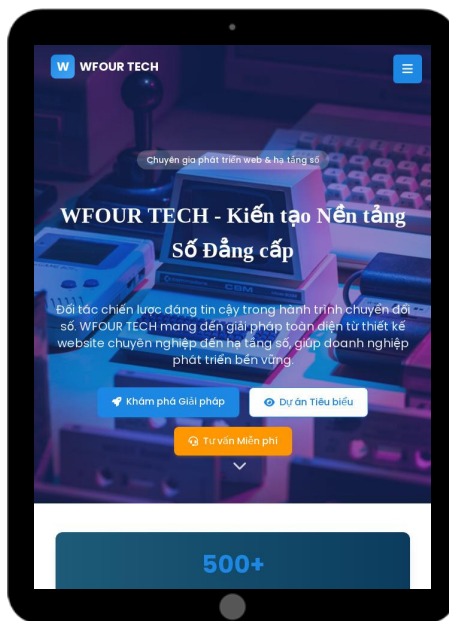

## Your usability could be better

Your page is OK but could be more usable across devices. Usability is important to maximize your available audience and minimize user bounce rates (which can indirectly affect your search engine rankings).

### Device Rendering

This check visually demonstrates how your page renders on different devices. It is important that your page is optimized for mobile and tablet experiences as today the majority of web traffic comes from these sources.

i

### Google's Core Web Vitals

Google is indicating that they do not have 'sufficient real-world speed data for this page' in order to make a Core Web Vitals assessment. This can occur for smaller websites or those that are not crawlable by Google.

i

### Use of Mobile Viewports

Your page specifies a viewport matching the device's size, allowing it to render appropriately across devices.

Google's PageSpeed Insights - Mobile

Google is indicating that your page is scoring poorly on their Mobile PageSpeed Insights evaluation.

Note that this evaluation is being performed from US servers and the results may differ slightly from an evaluation carried out from Google's PageSpeed Web Interface as that reporting localizes to the region in which you are running the report.

Google has indicated that the performance of a webpage is becoming more important from a user and subsequently ranking perspective.

Lab Data	Value
First Contentful Paint	3.9 s
Speed Index	4.8 s
Largest Contentful Paint	8.1 s

Flash Used?

No Flash content has been identified on your page.

### iFrames Used?

Your page appears to be using iFrames.

iFrames are discouraged as they can complicate navigation of content in mobile and have historically been harder to index for search engines.

### Favicon

Your page has specified a favicon.

### Email Privacy

Email addresses have been found in plain text.

We recommend removing any plain text email addresses and replacing them with images or contact forms. Plain text email addresses can be susceptible to scrapers and email spammers.

### Legible Font Sizes

The text on your page appears to be legible across devices.

### Tap Target Sizing

The links and buttons on your page appear to be appropriately sized for a user to easily tap on a touchscreen.

## Performance Results

### Your performance is good

Your page has performed well in our testing meaning it should be reasonably responsive for your users, but there is still room for improvement. Performance is important to ensure a good user experience, and reduced bounce rates (which can also indirectly affect your search engine rankings).

### Page Speed Info

Your page loads in a reasonable amount of time.

#### Server Response

#### All Page Content Loaded

#### All Page Scripts Complete

### Download Page Size

Your page's file size is reasonably low which is good for Page Load Speed and user experience.

### Number of Resources

This check displays the total number of files that need to be retrieved from web servers to load your page.

### Google Accelerated Mobile Pages (AMP)

This page does not appear to have AMP Enabled.

### JavaScript Errors

Your page is reporting JavaScript errors during load.

This could indicate that some required functionality on your page is failing or scripts may have coding problems.

### HTTP2 Usage

Your website is using the recommended HTTP/2+ protocol.

### Optimize Images

All of the images on your page appear to be optimized.

### Minification

All your JavaScript and CSS files appear to be minified.

### Deprecated HTML

No deprecated HTML tags have been found within your page.

### Inline Styles

Your page appears to be using inline styles.

Inline styles are an older coding practice and discouraged in favor of using CSS style sheets, due to their ability to degrade page load performance and unnecessarily complicate HTML Code.

## Social Results

### Your social could be better

You do not appear to have a strong social presence or level of social activity (or we may just not be able to see your profiles!). Social activity is important for customer communication, brand awareness and as a marketing channel to bring more visitors to your website. We recommend that you have all of your profiles listed on your page for visibility, and work to build a following on those networks.

### Facebook Page Linked
